

Centre for Smart Product Specialist Advice and Assistance

Practical solutions for *business*

Need help to develop a new product, or build, select or install new technology that could improve the efficiency of your company?

If you are a small company or individual that needs specialist advice and technical support but can't afford to undertake an expensive R&D project, WelTec Connect's special \$1,000* Deal may be right for you – that's a 40 percent saving on our standard rates!

This special deal will provide you with technical support and advice as you need it. This is what you will get:

- ♦ An initial free meeting to discuss your needs
- ♦ 15 hours of our time which may be used on technical support and advice – provided in face-to-face meetings, telephone calls and email – or design services.

With your permission, we will also add you to our mailing list so that you receive our newsletters and invitations to special events.

If you choose to accept this deal, we will hold the initial free meeting to discuss your needs and how we might best support you. You will then be sent an invoice for \$1,150, which must be paid prior to us providing the services. You will be notified regularly of the amount of time you have used up, so there are no surprises.

Alternatively, you could engage us on a casual, consultative basis at our standard rate of \$110 per hour, plus GST.

We look forward to being of assistance to you.

Andrew Rodger

Design Engineer

“ WelTec Connect as an R&D partner, has complemented the precise skills and equipment this Heatback project was previously lacking and working with the team was a most pleasant and fruitful experience. ”

Joseph Van Liempt, Managing Director
HeatBack Ltd

* This cost excludes GST. Note there may also be provision within this deal to get a limited amount of prototyping services.
